* The Administration, Teachers & Students of Loyola Boys Middle School, Chuhari for their Contributions & Support

* Kumar Printers, Muzaffarpur (Media & Printing)

A Century of Excellence and Gratitude

As our beloved institution completes its glorious 100 years, we, the Teachers and the Principal, stand with immense pride and heartfelt gratitude.

It is not merely the celebration of a number, but a tribute to the values, vision, and commitment that have shaped generations. We extend our deepest gratitude to the founders, whose foresight and dedication laid the foundation of this temple of knowledge. To the organization and governing body, thank you for nurturing this institution with unwavering support, strategic guidance, and a firm belief in the power of education.

To the education system and community, we are grateful for your constant cooperation and evolution, which helped us adapt and grow with the changing times. Your support has enabled us to uphold the standards of excellence and integrity in learning.

With every passing year, we've witnessed batches of students walking through these corridors — arriving with curiosity, leaving with confidence. Watching thousands of young minds grow, evolve, and succeed has been our greatest reward. This centenary marks a milestone — not just in years, but in stories, dreams, and transformations. As educators, it fills our hearts with joy to reflect on this journey and look ahead to many more years of inspiration, innovation, and impact.
